"152 GENERIC EVILS"

DEFINITION OF 'EVIL': Whatever is [bad, harmful, costly, destructive, negative, undesirable, wrong, or the like] -- to anything whatever -- in any way -- in any degree. The term may apply both to animate and inanimate phenomena, or to 'their point of view'. The concept is purely relative, except insofar as various integrals may be taken over all identifiable bads and these integrals may compete for the supreme degree of goodness.

1. Abuse [of alcohol, drugs, machines, opportunities, privileges, talents, one's body, knowledge, etc].
2. Aggression or conflict.
3. Aimlessness.
4. Anomie (pathological normlessness) or alienation.
5. Anxiety.
6. Bad habits.
7. Bad manners or gracelessness.
8. Bad, inadequate, or nonexistent exemplars or models.
9. Brutality.
10. Chaos.
11. Characterlessness.
12. Cheating.
13. Civilization's infantility.
14. Complacency.
15. Compromise (where expedient or mistaken).
16. Confusion of means and ends.
17. Cowardice.
18. Crime.
19. Crowding or overpopulation.
20. Cruelty (conscious or unconscious).
21. Culturelessness, barbarism, or backwardness (e.g. of Third World).
22. Cynicism.
23. Dangerous tendencies.
24. Deculturation or retrogression.
25. Dehumanization or demoralization.
26. Delusion, error, illusion, fantasy, blindness, or self-deception.
27. Denaturation.
28. Denial of rights.
29. Disaster (natural or man-made).
30. Discrepant values, cultures, weltanschauungen, customs, beliefs, etc.
31. Disease, illness, or infirmity.
32. Disharmony generally.

33. Distrust.
34. Dogmatism.
35. Ecological disruption, damage, annihilation, or nullity.
36. Empty formalism, rituals, etc.

1. Active sink for atmospheric moisture; water being removed from atmosphere; atmospheric exit.
2. Aeronautical problem or obstruction (forbidden region).
3. Aerosol mass.
4. Amorphous object.
5. Approaching and departing object.
6. Chromatic filter.
7. Concentration of dihydrogen monoxide; patch of higher humidity.
8. Condensational process and product.
9. Contributing source of a greenhouse effect.
10. Convergence.
11. Diaphanous object.
12. Discontinuity.
13. Distant, inaccessible, and intangible object.
14. Dynamic equilibrium.
15. Encephalic and mental concept, pattern, and thought process; set of radiating and interacting mental associations and perturbations; set of emerging and cascading feelings and corollary reflections and purposes.
16. Encephalic and mental percept.
17. Epiphenomenon.
18. Essential step in hydrological cycle.
19. Everting object (usually).
20. Extremely irregular spheroid.
21. Fractal curve, surface, structure, or hierarchy.
22. Generic cloud.
23. Geometric locus (point, patch, surface, or object).
24. Gigantic electrical capacitor accumulating charge; high-voltage machine.
25. Groundward reflector of sunlight.
26. Group of neural impulses and interactions.
27. Growing or shrinking object or patch.
28. Human existential event.
29. Indicator of existence or altitude of atmospheric layer(s).
30. Infrasound source.
31. Inkblot stimulating fancies and fantasies.
32. Instantaneous form or image of developing process or morphodynamical phenomenon.
33. Lighter-than-air object.
34. Mass or set of water droplets/crystals, spheres/hexagons, or points.
35. Member of simultaneous group of clouds (e.g.öpatch, street, row, storm, front, or cyclonic formation).
36. 'Nothing'.
37. Obscurer of earth's surface to universe.

38. Part or element of the sky.
39. Piece of matter or population of molecules or atoms.
40. Piece of turbulence or turbulent or unstable air.
41. Poetic symbol and inspiring spectacle.
42. Potential radar image.
43. Precipitation source or generator.
44. Protean object.
45. Psychometeorological contributor to society's mood.
46. Quasi 'partial vacuum'.
47. Reflector of sunlight back into space.
48. Region or object in thermal disequilibrium with surrounding atmosphere.
49. Self-generating thing (hyp.).
50. Set of innumerable microscopic lenses or prisms.
51. Set of retinal sensa.
52. Source of radio static.
53. Subpopulation of water droplets or ice crystals.
54. Sunlight screen; origin of 'shadow-beam'.
55. Suspended and drifting object.
56. Transmitter of light.
57. Type of cloud.
58. Vast aggregate water surface (sum of myriad droplet or crystal surfaces).
59. Visible cyclic phase of thermal; by-product of updraft or downdraft.
60. Water reservoir.
61. Weather portent and atmospheric index.
62. White light source.

"99 Elements and Dimensions That Define and Describe 'Trees'":

Alternations/Sub-Sequences - Vs. - None
Angle-of-Branching
Associativity - Vs. - Nonassociativity
Autonomy - Vs. - Heteronomy
Branch Distances (Incl. Harmonics, &c)
Branches - Vs. - Roots
Branching Cycles
Branch/Trunk Thickness - Vs. - Diameterlessness (Line-Ness)
Breadth
Breaks (Interruptions)
'Bundlings'
Capacity (Relative; N Types of)
Certainty - Vs. - Uncertainty
Clustering/Grouping/Nesting - Vs. - None
Combinability - Vs. - Non-Combinability
Compactness/Density
Completeness - Vs. - Partiality
Complexity - Vs. - Simplicity
Content - Vs. - None

Coordinates/Symbols/Words/Numbers/Signs/Indexes/&c
 'Cybernetics' - Vs. - No Cybernetics (No Feedback fr. Ext. World/Self/Experience)
 Decay
 Development
 Different Types of Elements (0-Inf.)
 Dimensionality (Incl. Fractal, Adinfinite)
 Direction
 Dispersion (of Various Traits, e.g. Branch Length/Angle)
 Distributivity (Full-Limited-Zero)
 Divergence - Vs. - Convergence
 Diversity - Vs. - Sameness
 Equations
 Evolution
 Explicitness - Vs. - Implicitness
 'Extension'
 Exteriority
 'External Space Metric'
 Familiarity - Vs. - Novelty
 Favorite Path|s/Axis|s - Vs. - None
 Finitude - Vs. - Infinitude
 'Furcation Number' (Number of Branches fr. Same Node - 0-Inf.)
 Gestalt Form - Vs. - None
 Gradient (Incl. 0-Inf. Nonlinearity of Same)
 Growth - Vs. - Growthlessness
 Height
 Hierarchy - Vs. - None
 'Idiomorphy' (Possession of Own, Idiosyncratic Form)
 Ill-Defined/Undefined Parts/Aspects
 Imitativeness of Arbitrarily Non-Tree-Like Forms
 Instantaneous Or Durational Form - Vs. - Instantaneous Change ('Flow')
 Interiority
 Life - Vs. - Inertness
 Lists
 Literality - Vs. - Figurativeness
 'Mapping'
 Mathematical Limits & Boundaries (Any & All)
 Modes
 Movement|s/Behavior|s
 Neighborhoods
 No Closure - Vs. - Anastomosis
 Node/Branch Ratio
 Number of Trunks (0-Inf.)
 Objective Meaning
 Orientation
 Outlinear (Exterior) Shape
 Parallelisms (Internal)
 Partitions
 Permutability (Sequential, &c Re-Orderability of Tree'S Parts) - Vs. - Non-Permutability
 Physicality (Physiomorphism/Concreteness) - Vs. - Abstractness (Ideomorphism)
 Proteanness - Vs. - Permanence of Form &/Or Other Properties
 Randomness/Regularity/Rhythm/Periodicity
 Rectilinearity - Vs. - Curvilinearity
 Reversibility - Vs. - Irreversibility
 Rules
 Self-Avoidance - Vs. - Self-Indifference - Vs. - Self-Attraction
 Self-Homogeneity - Vs. - Self-Heterogeneity ('Territoriality'/Subdivision)
 'Self-Ingression'

Self-Interactiveness
 Self-Intersection - Vs. - None
 Self-Tangents
 Sharpness/Clarity - Vs. - Vagueness
 Singularity - Vs. - Multiplicity
 Size (e.g. of Area/Volume/Intricacy)
 Spontaneity - Vs. - Predefinition ("A-Priority"Ø)
 Start/s - Vs. - End/s - Vs. - None
 Stratification (0-Inf. Levels)
 Subjective Meaning
 Sub-Trees/Super-Trees (Topologically Enclosed/Enclosing In A/V/Dimensionless Points; 1-Inf.)
 Successive Sub-Branching (Amount)
 Symmetry - Vs. - Asymmetry
 Targets
 Texture of Branching Pattern
 Things Transported Over - Vs. - None
 'Three-D Layers' (Like Concentric Shells, Say Representing Rhythmic Branching Densities)
 'Topological Self-Enclosure'
 Transitivity - Vs. - Intransitivity (Sensu Logical Relations of Tree's Parts)
 Universality
 Variability/Plasticity - Vs. - Rigidity
 Vergence
 Verticality - Vs. - Horizontality/Flatness

"72 CAVE ANALOGS":

Alimentary canal
 All SOLID networks
 Animal burrows
 Animal passageways in underbrush
 Anthill or termite mound
 Arcade or archway
 Astroglia
 Atmospheric path of jet plane or rocket
 Atmospheric vortices (eddies, tornadoes, etc)
 Bank vault
 Bark vermiculation
 Bone (Haversian canal, lacunary, or canalicular systems)
 Building passageway-room systems
 Catacomb or tomb
 Cellar or basement
 Central canal-ventricular-subarachnoid space system
 Central vent of volcano
 Circulatory system
 Cliff dwelling
 Cross-country oil, gas, or slurry pipeline systems
 Electronic circuit (for electrons)
 Endocrine subsystems
 Extracellular space system
 Fault
 Fumaroles
 Geological joint system
 Geyser substructure
 Golgi apparatus (dictyosome network)
 Indoor shopping mall
 Intramural space

Ionic channels in crystal
 Leaf epidermis
 Limestone micro-caves
 Lymphatic system
 Magnetic flux tubes from sun
 Maze
 Microfilaments
 Microtrabecular matrix
 Microtubules
 Mine
 Mole and earthworm tunnelings
 Moonless night
 Municipal water-supply system
 Natural bridge
 Nervous system
 Neuron
 Outer - middle - inner ear system
 Petroleum reservoir
 Phreatic channel space
 Plant vascular system (e.g. öphloem, xylem, or leaf venation)
 Plumbing
 Plumes (penetrating the crust, mantle, even core?)
 Pore space in a stone or brick
 Protein molecule
 Respiratory system (nasal, oral, pharyngeal, tracheal, bronchial, alveolar, etc)
 Sand particle surface-center pore
 Sandstone pore space
 Sebaceous, apocrine, and eccrine glands
 Sewage system
 Soil vadose pore space
 Sponge
 Spring
 Subway system
 Supernovae-generated vermiculation in galactic atmospheres
 Talus interspaces
 Tooth decay cavity
 Tubular networks in clays
 Tunnel
 Volcano substructure (dikes, sills, laccoliths, magma chambers, etc)
 Wasp nest
 Well
 Womb (fallopian - uteral - vaginal - vulvar system)

"72 GENERIC PROPERTIES OF THE ARCHANALOGON 'CAVE' AND ITS ANALOGS"

1. Aegagropilous.
2. Anastomotic.
3. Asymmetric (antero-posterior).
4. Axosymmetric.
5. Bounded or finite.
6. Branched ([with or of] graph-theoretic nodes and links).
7. Centraxial (possessed of backbone or main central axis).
8. Chambered, with swellings or pinchings, moniliform, or sequential.
9. Contains, develops, or entraps [breakdown or breccia, wastes, deposits, sediments, sedimentary strata, in-fill, sandbars, allocthonous material, e/vc].
10. Continuous or integral.

11. Course or outline is [undular, wiggly, squirmy, helical, or angular].
12. Curvilinear.
13. Dendriform.
14. Descends.
15. Destructive.
16. Develops and has types of speleothems [accretions, concretions, protrusions, barriers, crystals, drapes, e/vc].
17. Diagonal.
18. Discontinuous.
19. Drains matrix (e.g. of fluid).
20. Ellipsoidal or lenticular (as to overall 3-dimensional shape of network).
21. Enterable or occupiable.
22. Exhibits growth [extension, cross-section enlargement, arborescence, e/vc].
23. Exhibits spatial trend.
24. Flow-bearing, translocates things or materials, and/or is path-like.
25. Flow-formed.
26. Formed by processes of [erosion, solution, corrosion, collapse, removal, e/vc].
27. Formed in [joints, faults, interstrata beds, weak layers, porous matter, e/vc].
28. Fractal (hyp.).
29. Has one opening (single entrance sans back exit).
30. Hidden.
31. Hierarchical or multi-scale.
32. Hollow, evacuated, or negative (represents simple absence of matrix substance).
33. Horizontal.
34. In solid matrix.
35. Individually idiosyncratic.
36. Interconnective.
37. Involves nothingness [is dark, silent, colorless, lifeless, e/vc].
38. Involves temporally [uniform, static, eventless, or stagnant] conditions [thermal, hygroscopic, biological, etc].
39. Isolated.
40. Liable to undergo accidental self-sealing or fragmentation.
41. Linear or elongate.
42. May have ponds.
43. Minor part of matrix volume.
44. Multifform.
45. Multilevel, stratified (multiplanar), or multi-rowed.
46. Multipartite.
47. Mysterious, or disorienting to human visitor.
48. Network-like or labyrinthine.
49. Nonlinear (in genesis or dynamics).
50. Passes through multistage birth-to-date life cycle [born, grows, matures, ages, and dies].
51. 'Polycentric' (structure multiply clustered).
52. Poly-cyclic; can become quiescent or fossil-like and then be reactivated.
53. Radiational, or vergent or fusiform.
54. Rectangular (often).
55. Regional and clustered in occurrence.
56. Represents 'internal' structure ('endostructural').
57. Reticular (cf. #5, #71).

58. Sculptural or has speleogens (scallops, cracks, blades, e/vc).
59. Self-destructive.
60. Self-inductive.
61. Self-interactive.
62. Semi-full (semi-empty).
63. Semi-random pattern.
64. Shortcut (is a).
65. Simple.
66. Space-filling.
67. Subsurficial (e.g. subterranean).
68. Truncatable, deflectible, or retrovertible.
69. Tubular diameter regresses inwardly ('conoidal').
70. Tubular.
71. Unstable or metastable.
72. Wandering or with meanders.
